Precambrian Research

Contents Vol. 72

Apparent polar wander and reversal stratigraphy of the Palaeo–Mesoproterozoic southeastern McArthur Basin, Australia
M. Idnurm, J.W. Giddings and K.A. Plumb 1
The emplacement of the Wuluma granite: melt generation and migration along steeply dipping extensional fractures at the close of the Late Strangways orogenic event, Arunta Block, central Australia
B. Lafrance, G.L. Clarke, W.J. Collins and I.S. Williams 43
Geochemistry of Fe–Mn formations of the Archaean Sandur schist belt, India – mixing of clastic and chemical processes at a shallow shelf
C. Manikyamba and S.M. Naqvi 69
Sm–Nd evidence for late Archaean crust formation in the Lapland–Kola Mobile Belt, Kola Peninsula, Russia and Norway
M.J. Timmerman and J. Stephen Daly 97
Chemical composition of banded iron-formations of the Griqualand West Sequence, Northern Cape Province, South Africa, in comparison with other Precambrian iron formations
U.E. Horstmann and I.W. Hälbich 109
U–Pb geochronology and tectonic development of the southern flank of the Kisseynew Domain, Trans-Hudson Orogen, Canada
K.M. Ansdell and A.R. Norman 147
Announcement 169
Megafossils from the Mesoproterozoic Rohtas Formation (the Vindhyan Supergroup), Katni area, central India
S. Kumar 171
The Palaeoproterozoic boron deposits in eastern Liaoning, China: a metamorphosed evaporite
Q.M. Peng and M.R. Palmer 185
Palaeoproterozoic intraplating exposed by resultant gravity overturn near Kiruna, northern Sweden
C.J. Talbot and H. Koyi 199
Tourmalinites in the 3800 Ma old Isua supracrustal belt, West Greenland
P.W. Uitterdijk Appel 227
The Pb/Pb age of the Minas Supergroup carbonate rocks, Quadrilátero Ferrífero, Brazil
M. Babinski, F. Chemale Jr. and W.R. Van Schmus 235
Carbonate Pb–Pb ages of the Wittenoom Formation and Carawine Dolomite, Hamersley Basin, Western Australia (with implications for their correlation with the Transvaal Dolomite of South Africa)
B. Jahn and B.M. Simonson 247
Neoarchean trondhjemitic and tonalitic orthogneisses identified within the northern Grenville Province in Ontario by precise U–Pb dating and petrologic studies
Y.D. Chen, T.E. Krogh and S.B. Lumbers 263
Basement–cover relations between a granite gneiss body and its metasedimentary envelope: a structural study from the Early Precambrian Dharwar tectonic province, southern India
K. Naha, D. Mukhopadhyay, S. Dastidar and R.P. Mukhopadhyay 283
Geochemistry, tectonic setting, and poly-orogenic history of Palaeoproterozoic basement rocks from the Caledonian fold belt of North-East Greenland
F. Kalsbeek 301
